Career Objective

Motivated and detail-oriented Computer Science graduate with hands-on experience in **Python development, full-stack web applications, and data engineering**. Seeking an **entry-level software developer or data engineer** role where I can apply programming, database management, and cloud integration skills to build **scalable, innovative solutions** in a collaborative team environment.

Education & Certification

Bachelor of Engineering (CSE) Sardar Raja College of Engineering, Anna University	2025
Diploma in Computer Engineering MSPVL Polytechnic College, DOTE	2022
SSLC St. Assisi Matric Hr. Sec. School, Pavoorchatram	2019

Technical Skills

- Languages:** Python, HTML, CSS, JavaScript
- Frameworks & Libraries:** Django, Flask, React Native (Basics)
- Databases:** MySQL, SQLite, PostgreSQL
- Cloud & Big Data:** AWS (S3, Glue), Databricks, Salesforce Integration
- Tools & Platforms:** Git, Jenkins, Visual Studio Code, Render, Vercel
- Core Skills:** REST API Development, ETL Pipeline Design, Data Integration & Testing, Deployment Automation

Projects

Student Task Tracker (Django + MySQL)	[GitHub]
- Built a full-stack web application using Django and MySQL to manage academic tasks with deadlines and status tracking. - Implemented secure user authentication, CRUD operations, and progress tracking features to improve task organization by 80%. - Deployed application on a hosting platform with a responsive frontend and scalable backend architecture.	

Experience

Data Engineer Trainee — DataKalamIT Pvt Ltd	Jun 2025 – Present
- Working on real-time data projects integrating AWS, Databricks, and Salesforce to support enterprise data workflows. - Designed and maintained ETL pipelines for structured and semi-structured data, ensuring accurate transformation and integration. - Automated deployment processes using Jenkins, improving CI/CD efficiency and reducing manual errors. - Conducted ETL testing, debugging, and performance optimization to ensure data accuracy and system reliability.	
Python Full Stack Intern — Uniq Technology	Feb 2025 – Jun 2025
- Developed web applications using Python, Flask, Django, MySQL, and frontend technologies (HTML, CSS, JavaScript). - Implemented REST APIs, authentication, and database integration, enhancing application usability and performance. - Collaborated in an Agile environment, gaining exposure to end-to-end development and deployment workflows.
